

MSB-FB090、FB092卷制轴承 FB090 , FB092 Bronze Wrapped Bushes

该产品采用特殊配方的高密度铜合金带材为基体，表面可以按用户要求轧制菱形或球形的油穴、油槽。

This is a kind of bushes wrapped by bronze strip. The bronze is of particular formulation with high specific gravity and on its surface may be in processed spherical or diamond shaped indentations or oil grooves as required by customers.
